The Honorable Lorena Gonzalez  
Chair, Assembly Appropriations Committee  
State Capitol, Room 2114  
Sacramento, CA 95814

Re: **SB 4 (Gonzalez) Communications: California Advanced Services Fund: Deaf and Disabled Telecommunications Program: Surcharges.**  
**Notice of SUPPORT (As Amended 05/20/21)**

Dear Assembly Member Gonzalez,

The City of Arcata is pleased to support SB 4 (Gonzalez), which would prioritize the deployment of broadband infrastructure in unserved and underserved communities throughout California through the ongoing collection of the California Advanced Services Fund (CASF) surcharge.

As local governments mobilized to address the spread of COVID-19, it became apparent that many communities lack of access to reliable and affordable broadband service and struggle to stay connected to school, work, and healthcare in this new digital environment. While Californians are increasingly using the internet to connect with others, local governments have taken to online platforms to ensure civic engagement during these unprecedented times.

SB 4 is a step in the right direction and ensures the continued collection of an essential source of broadband funding. This measure not only authorizes the ongoing collection of the existing CASF surcharge but also makes it easier for local governments to access these grants. These funding opportunities would allow local governments to continue to play a vital role in deploying broadband infrastructure in their communities.

In addition to these essential funding opportunities, SB 4 also would expand the definition of "unserved." Expanding this definition increases eligibility for CASF grants, which are currently reserved for areas with dial-up speeds or lower, leaving out many communities where Californians struggle to stay connected with slightly faster but still obsolete speeds.

While the City is unlikely to benefit directly from SB 4, the City supports expansion of broadband access to underserved communities. The Northcoast has several projects underway that are integral to the backbone network to support expanded access. Arcata is hosting the primary data center associated with the transpacific fiber project. The extension of this network along highway 299 provides ample

opportunity to connect such underserved communities. The CASF program will provide opportunity for these communities.

For these reasons, the City of Arcata supports SB 4 (Gonzalez).

Respectfully,

Brett Watson, Mayor  
City of Arcata
