

SINGLE-USE *Disposable* FOODWARE REGULATIONS

ORDINANCE NO. 1527 WHAT THIS MEANS FOR CONSUMERS

Bring Your Own!

Customers can bring reusable containers for their **to-go** orders and receive a \$0.25 discount on their order. Be sure to communicate with the food vendor about what size container will be appropriate.

When Can We Start?

This ordinance is already fully enforceable. This means that all single-use disposable foodware, including accessory foodware, must be fiber-based compostable (free of PFA and PLA). It also mandates that accessory foodware items (straws, stirrers, napkins, utensils, condiments cups, packets, cup sleeves, and lids) are only provided upon request, or at a self-serve station.

What If I Forget?

Food Vendors must use fiber-based compostable foodware for to-go orders. Customers that use a single-use to-go container will receive a \$0.25 fee on their order. Remember, you can still order dine-in if you forget to bring a reusable!
