

Alexandra Stillman

Occupation: Arcata City Council Member/Small Business Owner

So much has changed in Arcata since I moved here in 1971, and I am proud to have been involved in those positive changes. I was a part of creating the Arcata Marsh, the sustainable Community Forest, the county's first public transit system, and the Aldergrove Industrial Park to incubate small business.

I was the first woman to be elected to the Arcata City Council and to serve as Mayor. I served on the City Council for 18 years between the years of 1972 and 2024 because I love Arcata and felt I could contribute. I have been a small business owner since 1974, enriching Arcata as best I could while raising my family here.

My additional community involvement currently includes representing Arcata on the Humboldt Transit Authority, participating in the county-wide Housing Consortium, chairing the Humboldt County Aviation Committee and being a docent with the Friends of the Arcata Marsh.

I will continue to work hard to provide more housing for all, preserve our open space and agricultural land, provide opportunities for active recreation, and maintain Arcata's wonderful character. I would appreciate your vote on November 5, 2024
