Excess water consumption charges may be waived for customers who provide a written statement from a medical doctor indicating the medical necessity for excess water use.

Wastewater (sewer): Residential sewer rates are based on water consumption. The base rate is $50.51/month and includes the first 400 cu.ft. Consumption in excess of 400 cu.ft. is billed at $7.75/100 cu.ft. Winter averaging allowance will be made for irrigation purposes for all billing periods whose billing dates fall within the period of June 1 through September 30. The allowance will be computed based on average usage for the previous February through April period.

Sewer Repair Fee: In October 1996 the City Council approved a bond to pay for capital improvements in wastewater collections system. This bond is being repaid by the collection of a “Sewer Repair Fee” collected monthly on each sewer connection billed by the City. The initial payment was $1 per month starting in February 1997. The fee increased by $1 each year until the fee reached $5 per month in February 2001. The fee will continue at $5 per month for 20 years until the bond is paid.

Tampering Fee: A tampering fee of $298.00 shall be charged for the unauthorized operation of any City owned curb cocks, main cocks, gates on vales; or any interference with meters, their connections, or other parts of the City’s water system.

Backflow Prevention Devices: Residents with backflow prevention devices are charged $7.38 per month for backflow device rental and annual inspection.

Jacoby Creek Assessment District: Residents who live in the Jacoby Creek Water District are assessed $6.50 per month on their City of Arcata Water Bills. This money is used by the Jacoby Creek Water District to pay a bond debt for construction of the water lines and water tank that services the district. The bond is scheduled to be paid off in 2033. The address for the Jacoby Creek Water District is PO Box 122, Bayside CA 95524-0122.

Utility tax: All utility services within the city limit are taxed at a rate of 3%. For the purposes of City billed utilities, this applies to water and sewer charges.
