**A. Time limits.** Unless a condition of approval or other provision of this Land Use Code establishes a different time limit, any permit or approval not exercised within ~~12~~ 24 months of approval shall expire and become void, except where an extension of time is approved in compliance with Subsection B., below, or by the period of time in which:

1. An appeal to the Council is pending;

2. A proceeding before the California Coastal Commission is pending; or
3. Construction is restrained by the process of any Court of competent jurisdiction.

**B. Extensions of time.** Upon written request by the applicant, the Zoning Administrator may extend the time for an approved planning permit to be exercised. The Zoning Administrator may defer action and refer the request to the review authority who originally granted the approval.

**1. Filing and review of request.**

- a. **Time for filing.** The applicant shall file a written request for an extension of time with the Department at least 30 days before the expiration of the permit, together with the filing fee required by the City's Fee Schedule.
- b. **Basis for extension.** The Zoning Administrator shall determine whether the applicant has made a good faith effort to exercise the permit. The burden of proof is on the applicant to establish, with substantial evidence, that circumstances beyond the control of the applicant (e.g., demonstrated financial hardship, problems with completing the acquisition of the parcel, poor weather during periods of planned construction, etc.) have prevented exercising the permit.
- c. **Public hearing.** ~~If the original approval required a public hearing, the review authority who originally granted the approval shall hold a public hearing on a proposed extension of time, after providing notice of the public hearing in compliance with Chapter 9.74 (Public Hearings).~~

**2. Action on extension request.** A permit may be extended as follows for no more than two additional 12-month periods beyond the expiration of the original approval; provided, the review authority first finds that there have been no changes in the conditions or circumstances of the site or project that would have been grounds for disapproval of the original project.

- a. **Zoning Administrator's action.** ~~Unless referred to the original review authority, Upon good cause shown, the first an~~ extension may be approved, approved with modifications, or disapproved by the Zoning Administrator, whose decisions may be appealed to the Planning Commission, in compliance with Chapter 9.76 (Appeals).
- b. **Planning Commission's action.** ~~One subsequent extension may be approved, approved with modifications, or disapproved by the Planning Commission, whose decisions may be appealed to the Council in compliance with Chapter 9.76 (Appeals).~~

\* \* \*

**F. Developed in pre-approved phases.** If a project is to be developed in pre-approved phases, each subsequent phase shall be exercised within ~~42~~ 24 months from the date that the previous phase was exercised, unless otherwise specified in the permit, or the permit

shall expire and be void in compliance with Subsection C., above, except where an extension of time is approved in compliance with Subsection B., above.
