CONDITIONS:

1. DESIGN REVIEW APPROVAL. Design Review Commission approval will be required for changes proposed to the exterior of the structures per the Secretary of the Interior Standards, or for any development proposed on the parcels.
2. **DISCOVERY OF PREHISTORIC OR ARCHAEOLOGICAL RESOURCES.** Should concentrations of archaeological or paleontological materials be encountered during construction or grading operations, all ground-disturbing work shall be temporarily halted on the site and the Community Development Department contacted. Work near the archaeological finds shall not be resumed until a qualified archaeologist has evaluated the materials and offered recommendations for further action. Prehistoric materials which could be encountered include: obsidian or chert flakes or tools, locally darkened midden, groundstone artifacts, depositions of shell, dietary bone, and human burials. Should human remains be uncovered, State law requires excavation is halted in the immediate area and that the County Coroner be contacted immediately. Should the Coroner determine that the remains are likely those of a Native American, the California Native American Heritage Commission must be contacted within 24 hours of identification. The Heritage Commission consults with the most likely Native American descendants to determine the appropriate treatment of the remains.

3. **HUMBOLDT BAY MUNICIPAL WATER DISTRICT EASEMENT.** The Humboldt Bay Municipal Water District easement runs through the property. All rights and privileges afforded by the easement with respect to ingress/egress and maintaining/construction of the pipeline facilities shall be maintained.
